Targeted Safety and Loss Control

Targeted Safety and Loss Control Services provide each client with a customized service plan. Each client receives Loss Control Services with OSHA compliant safety programs based on site visits and associated risks within each industry.

Bilingual Loss Control Assistance

Bilingual Loss Control assistance is available and includes safety meeting materials in English and Spanish.

Safety Compliance Consulting

Safety Consulting includes on-site inspections to identify hazards, review accident history and assist in establishing an effective loss-control plan. Cal/OSHA Compliance counseling assists clients in understanding the requirements of Cal/OSHA safety and health regulations. This includes customized written safety programs such as Hazard Communication, Respiratory Protection, Heat Illness Prevention, Bloodborne Pathogens and Injury and Illness Prevention Programs.
